Subject: Uber

Uber offers a safe alternative to taxis for people in need of that sort of service. The fact that taxi serves haven't offered the same level of technological convenience up to this point is no one's fault but their own.

My twin brother was killed in a single car accident after leaving a bar in 2010. He had waited on a taxi, which never showed, and ended up driving when he shouldn't have. If Uber had been around then instead, who knows? But why take away the option? This is free market competition, community service, and job creation rolled into one company. This fight against it is just ridiculous. SC continues to be on the backwards end of another national issue.

Thank you for your time and consideration,
Ashley Lowder

Do not stop Uber from working in SC!!!!!! This is just plain wrong!
We love Uber's service, drivers & cars. Feel much safer not having to exchange cash also.
Please stop harassing this great business. Let Uber continue to serve the people of South Carolina!!!!

Thanks,
Andre Penninger

PSC,

Uber is a progressive transportation service that is not only safe and efficient, but also a necessary option for both locals and tourists in the Charleston area.

If SC wants to contend with the countless other states that successfully utilize Uber, then SC authorities will seek to enable companies like Uber that provide value based transportation alternatives.

Good morning,

Uber provides a safe, affordable, and convenient service and I'm writing to ask that you stop the cease order in South Carolina.

The Uber service is far more reliable than most other taxi services. Cars arrive usually within minutes and at the end of your trip you are emailed a receipt that details your exact time, distance, cost and driver information. This alone makes the service safer and more honest than a taxicab called off of the street.

Thank you for your consideration.

I am writing to show my support of Uber. If you've ever taken a ride with them compared to a regular taxi, you would understand the difference and welcome it. They're safe, clean, and affordable. Why close such a great thing? It's ridiculous.
